

How to Submit Code

- In this tutorial you will learn how to:
 - Submit code for a competition!
 - Verify code submission
 - Review results on the Leaderboard.

File -	Edit -	Simulate -	Help -	
Pages		Compile Codesize E	stimate	RES Controls
init		Simulate Profile		es
main		Submit		
Functions				

3

- Ready to submit your code?
- Step 1: Open the project you want to submit

• Step 2: Go to the "Simulate" menu and select "Submit"

The Submit code window will open.

- Step 3: Select the name of your team (You will have options if you are member of more than 1 team)
- Step 4: Select the competition you are submitting to.

Submi	t Code		000010000	
Team	Team 1	Competition	Competition 1	\$
1	float step:			
2	float positionA $[3]$:			
3	·····			
4	void setPos(float x, flo	at y, float	z) {	
5	float pos[3];			
6	<pre>pos[0] = x; pos[1] =</pre>	y; pos[<mark>2</mark>]	= z;	
7	api.setPositionTarge	t(pos);		
8	}			
9				
10	//Begin page init			
11	<pre>void init() {</pre>			
12	step = $0;$			
13	positionA[0] = 0;			
14	positionA[1] = 0;			
15	positionA[2] = 0;			
16	}			
17	//End page init			
18				
19	//Begin page main			
20	if(stop) = 0			
21	ani setPositionTanao	+(nosition)	0.	
23	1	ccpost ctone	·/ ,	
25	,			
		uteemie official o	empetition program	

- Step 5: Review code in :
 - void init ()
 - void loop ()
 - any pages you created
- Ignore code in:
 - void setPos() and everything that comes before it
 - This is boiler plate code added to all the graphical editor projects.
- Verify that this is the code you want to submit

At the bottom of the window

- Step 6: Click on the check box to confirm your submittal
- Step 7: Select "Submit"

Submission Log

Info Overview Register Teams Teams	Submission Log 2D Practice Competition	 After submitting code to the competition: Click on your team's Submission Log (lower left menu of the tournament info page) to verify your code submittal
